**Cork
Chamber**
Advancing business together

Introduction

At Cork Chamber, we believe in the power of business as a force for good. We are proud to present this Social and Environmental Volunteering Brochure, developed in collaboration with our valued member charities and non-profit organisations.

This brochure is designed to connect member companies with a wide range of meaningful volunteering opportunities across the social and environmental sectors. It highlights the incredible work being done by local charities and showcases how businesses and their employees can get involved in ways that are both impactful and rewarding.

The objective of this resource is to make it easy for companies to identify and engage with causes that align with their values, whether it's through hands-on environmental initiatives, community support programmes, or skill-based volunteering. These opportunities not only benefit the wider community but also support employee wellbeing, team building and corporate social responsibility goals.

Volunteering together fosters a stronger sense of purpose and connection, both within teams and with the communities we live and work in. By taking part, your organisation can play a direct role in creating a more inclusive, sustainable and resilient Cork.
